

PRODUCT DETAILS

URINAL / PRIVACY SCREEN – FLOOR MOUNTED

A highly resolved design with a simple shape that sits well in any room. Quiet lines, great in a row, its minimalism makes the Floor Mounted Urinal Divider a strong contender for briefs requiring prestige.

Channel-fixed to the floor with a clean overhead line incorporating flush T joins allows the Floor Mounted Urinal to create a single structural element in a room.

Recommended by TPI for prestige applications, Floor Mounted Urinal Divider/Privacy Screen's can be built economically, to great effect, in Compact Laminate.

Urinal Dividers are an important fixture in the commercial washroom environment. TPI offers its own range of Privacy Screens that can be used as Urinal Dividers and as room dividers for visual privacy.

Our Privacy Screens (Urinal Dividers) are based on our most popular Cubicle designs and come in a wide range of colours and materials all suitable for use in commercial washrooms, including public toilets, schools, office environments and many more.
